

VIP Lisianthus

Care & Handling

1. Cut stems on an angle and remove any foliage below the water level.
2. Place in a clean container with room temperature water.
3. Slowly warm flowers to room temperature.
4. For optimum vase life, ensure that the water is treated with specially formulated flower food (Florissant 830).
5. Display in a cool location away from heat sources, air conditioners, direct sunlight, and fruit.
6. Repeat steps 1-2 every 3 days.

Storage: 16-17°C (61-62°F) cooler
75-85% humidity
