Asters

Care & Handling

1. Cut stems on an angle and remove any foliage below the water level.
2. Place in a clean container with room temperature water.
3. For optimum vase life, ensure that the water remains clean by treating with a slow release chlorine pill. To maintain color, use specially formulated flower food in addition to the chlorine pill.
4. Display in a cool location away from heat sources, air conditioners, direct sunlight, and fruit.
5. Repeat steps 1-2 every 2 days.

Storage: 1-2°C (33-35°F) cooler 80-90% humidity
